This is an incomplete script.

- Cut the blocks at the bottom of this page apart.

- Glue each in the correct location on this partial script.

```
go to x: -200 y: -100
switch costume to breakdancer1-c ▼
ask How many moves did I have in all my dances? and wait
repeat until (                =                  *                 )

say yes for 2 secs
```

___

answer   number of dances   number of moves

ask No, that is not correct. Try again? and wait
